Objective

Seeking to leverage my skills and passion for problem-solving to contribute to innovative projects and advance my professional growth in a dynamic and collaborative environment.

Experience

Web Developer Aug 2024 – Aug 2025

Freelance

Built various web apps using a low-code platform. Worked on React front-end for a recruitment platform. Created a custom web scraper to automate data collection.

Software Developer Intern Jan 2024 – June 2024

SugboDoc Technologies Inc.

I contributed to developing a small feature on a SaaS healthcare platform, assisted with testing, and handled processing of large data files for the database.

Web Developer Intern Feb 2023 – July 2023

Bureau of Fire Protection Region VII Office

I developed a local web system to manage the records of certificates for the Bureau of Fire Protection.
